Zenergy supplies integrated system solution. This project is the first 30kW / 100kWh Sodium Ion battery storage power station in the world.

At the Qianjiang facility, the sodium-ion battery system will store up to 100,000 kWh of electricity on a single charge and dispense it to 12,000 households for their daily needs. At...

The power station uses 185 ampere-hour large-capacity sodium-ion batteries, supplied by HiNa Battery Technology. Additionally, it features a 110 kV transformer station, ...

[Shenzhen, China - October 2025] - China has officially completed its first 100 MWh sodium-ion battery energy storage station, marking a milestone in the nation's clean-energy transition and ...

The project represents the first phase of the Datang Hubei Sodium Ion New Energy Storage Power Station, which consists of 42 battery energy storage containers and 21 sets of ...

This system can store 100,000 kilowatt-hours of electricity in a single charge, releasing energy during peak demand. This is enough to ...

Hina Battery said it is committed to the commercial use of sodium-ion battery energy storage technology, completing the construction of the world's first 100 kWh sodium-ion battery ...

It sets a new global record of world's largest operating sodium-ion battery energy storage system, breaking the previously held record by the largest system, a 10 MWh unit in ...

demand. This is enough to cover the daily electricity needs of ...

Hina Battery said it is committed to the commercial use of sodium-ion battery energy storage technology, completing the ...

A groundbreaking sodium-ion battery project in China's Hubei province has been switched on, boasting an impressive capacity of 100,000 kWh. This immense energy storage ...

It sets a new global record of world's largest operating sodium-ion battery energy storage system, breaking the previously held record by ...

At the Qianjiang facility, the sodium-ion battery system will store up to 100,000 kWh of electricity on a single charge and dispense it to ...

The power station uses 185 ampere-hour large-capacity sodium-ion batteries, supplied by HiNa Battery Technology. Additionally, ...

The project represents the first phase of the Datang Hubei Sodium Ion New Energy Storage Power Station, which consists of 42 ...

As China's first large-capacity sodium-ion battery energy storage station, this project is part of the national key research and development plan focusing on "hundred-megawatt-hour-level" ...
