Do you offer insulated greenhouse shipping containers?

We offer fully insulated, food-grade greenhouse shipping containers that have been specifically modified for your grows. Varieties of microgreens, herbs, lettuce, vegetables, tomatoes, strawberries, and even more crops can be safely grown in our Pods.

What is a 20 & 40 ft shipping container?

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. Fully customizable to your exact needs. The durable container design is completely waterproof, protects you and your equipment from the elements and any potential security threats.

How many pounds can you grow in a crop box?

Grow up to 7000 pounds each year in a CropBox. Stay tuned for our introduction of the strawberry Crop Box! Crop Box puts state of the art precision farming within your reach. It's a completely turn key agricultural system without worries about the weather, pests, heating prices or water.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

A 120kW hybrid system can help power irrigation systems, livestock operations, and processing facilities, enhancing productivity while reducing operational expenses.

Grow herbs, leafy greens, mushrooms, microgreens, strawberries and more with a Shipping Container Farming system from CROPBOX.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
