-----

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, ...

Discover how solar containers are revolutionizing rural electrification. Learn how to plan, size, deploy, and operate off-grid solar units effectively--real examples and expert ...

This system folds and unfolds like a compact solar power station, providing easy setup and transportation. Once deployed, the ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ...

Discover our innovative solar photovoltaic containers, designed for sustainable energy solutions. Perfect for

off-grid living, emergency power, or residential use, these portable systems harness ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or ...

Each container is equipped with a photovoltaic array, a battery bank, and a generator -- all custom-sized to meet the specific needs of the customer. With integrated remote monitoring ...

This system folds and unfolds like a compact solar power station, providing easy setup and transportation. Once deployed, the panels extend outward, creating a large surface ...

The Mobil-Grid <sup>®</sup> is the ideal solution for use in isolated areas, for large ground-mounted generators or for parks connected to the grid. For use on isolated sites, storage batteries can ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ...
