-----  
What is a 30kW inverter?

This is a 30kW Inverter, an efficient and highly reliable energy storage solution developed for small and medium-sized microgrids, supporting 30 kW PCS solar integration with competitive 30 kW PCS price.

What is hybrid V3 30kW?

Unlike traditional industrial size UPS which relies mainly on grid power during normal operation and battery for backup, the Hybrid V3 30KW comes integrated with solar input which allows smart energy management by utilizing solar, battery and utility powers.

Can a hybrid V3 30kW be used as a generator?

Similar to all of our hybrid-line inverters (grid feed capable), the Hybrid V3 30KW can also send any excess solar power to grid. In OFF-GRID mode, generators may be used in place of utility for backup. An integrated dry contact may be used to control on/off of the generator. Only quality inverter-type generators are recommended for use.

Unlike traditional industrial size UPS which relies mainly on grid power during normal operation and battery for backup, the Hybrid V3 30KW comes integrated with solar input which allows ...
