-----

The AIMS Power 7000 watt Industrial Grade power inverter accepts a 48 volt input and produces 240VAC of modified sine wave AC power. With the AIMS industrial grade line, you get a ...

The inverter can easily be changed from a North American output (60 Hz) to a European/African output (50 Hz) with the flip of a simple switch. With the 48-Volt DC input, you can run smaller ...

From recreation to industrial applications or off-grid home ...

At 7000 watts and up to 14000 watts for 9 seconds the Industrial Grade Modified Sine Wave Power Inverter promises to be a complete solution for any power need you present.

From recreation to industrial applications or off-grid home and solar power needs, this 7000 watt modified sine wave inverter delivers enough durable power for high end equipment that ...

From recreation to industrial applications and backup/emergency power needs, this 7,000 watt modified sine wave inverter delivers enough ...

The AIMS Power 7000W Modified Sine Inverter accepts a 48V input and produces 240Vac of modified sine wave AC power. With the AIMS Power industrial grade line, you get a ...

From recreation to industrial applications and backup/emergency power needs, this 7,000 watt modified sine wave inverter delivers enough durable power for high end equipment that ...

From recreation to industrial applications or off-grid home and solar power needs, this 7000 watt modified sine wave inverter delivers enough ...

The inverter can easily be changed from a North American output (60 Hz) to a European/African output (50 Hz) with the flip ...

This digitally outputted and phase corrected inverter is the recommended power solution for clean reliable output without noise or distortion. Delivering an incredible 7000 watts ...
