We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

As technology in the solar energy storage field evolves, we ensure that your system can adapt. Our after-sales service includes providing updates and upgrades to keep your installation current.

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high ...

Transform shipping containers into battery energy storage systems (BESS). These containers can house batteries for storing excess energy generated from renewable sources such as solar or ...

With integrated remote monitoring and diagnostics, our containers offer maximum energy independence and operational reliability. Before shipping, all systems are pre-assembled, ...

In this comprehensive guide, we delve into the workings, applications, and benefits of these revolutionary systems. Solar energy containers encapsulate cutting-edge technology ...

Our containerized energy solution offers notable economic and practical advantages: Minimal civil and site work costs, with system setup requiring only open flat ground and no ground penetration

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of ...
