What is Astana solar?

Astana Solar is a member of Astana - Zhana Kala special economic zone. Project capacity - 50 MW per year. Expansibility - up to 100 MW per year. The plant of photovoltaic panels has modern automated European equipment meeting the highest standards of safety and environmental standards. Manufacturer's workshop warranty - 10 years.

Is Astana a good place for solar energy?

Astana, Kazakhstan is a decent place for year-round solar energy generation but it's not the best. The amount of electricity produced by solar panels varies throughout the year.

Where are solar power plants located in Kazakhstan?

In 2019, Nurgisa solar power plant with a capacity of 100 MW in Kapshagay, Almaty region started its operation (informburo.kz, 2019). In 2019, another solar power plant in Kazakhstan, Saran, with a capacity of 100 MW started its operation in the Karaganda region (Satubaldina, 2020).

Who is Astana solar LLP?

Astana Solar LLP is a subsidiary of NAC Kazatomprom JSC implementing the project "Production of photovoltaic modules with the use of Kazakhstani silicon" "KazPV". On December 25, 2012, during the visit of the Head of State to the plant, start-up and commissioning works were launched, the first Kazakhstani photovoltaic module was produced.

Astana Solar LLP offers photovoltaic modules of two types and different capacities, produced on European automated equipment of a new generation. The production capacity of the plant ...

Launched in 2015 with a 50 MW installed capacity (later expanded to 100 MW), it became the first utility-scale solar farm in Central Asia. The project was financed by the EBRD ...

If you can adjust the tilt angle of your solar PV panels, please refer to the seasonal tilt angles below for optimal solar energy production in Astana, Kazakhstan.

In this light, recently "Astana Solar" plant aimed at the production of photovoltaic modules was launched in Nur-Sultan. The plant is to produce solar cells using Kazakhstan's silicon. The ...

A solar power plant with a capacity of 10 kW is installed on the roof of a production building. The solar power plant will provide backup power for production in the city of Astana, the Republic ...

In the last week of 2023, the team of the Western branch of MEK-Astana LLP successfully commissioned a new solar (photovoltaic) station with a capacity of 100 kW. From the ...

Astana Solar is a subsidiary of the National Nuclear Company Kazatomprom, which offers photovoltaic modules. Production of two types of photovoltaic modules, solar panels, ready ...

Targeted assistance to individual consumers-citizens of the Republic of Kazakhstan living in non-electrified areas or settlements is established, up to 50% of the cost ...

In this light, recently "Astana Solar" plant aimed at the production of photovoltaic modules was launched in Nur-Sultan. The plant is to produce ...

Astana Solar is a member of Astana - Zhana Kala special economic zone. Project capacity - 50 MW per year. Expansibility - up to 100 MW per year. The plant of photovoltaic panels has ...

If you can adjust the tilt angle of your solar PV panels, please refer to the seasonal tilt angles below for optimal solar energy production in Astana, ...

Get all information about Astana 2 power station in Kazakhstan here. Invest profitably in renewables for a cleaner future!
