Many in our tally of the ten biggest battery projects in Australia have more than 10 times the storage capacity of Hornsdale. One will have ...

Sixteen grid-scale battery projects have now been awarded contracts, collectively providing 4.13 GW--or 15.37 GWh--of energy storage capacity scheduled to be operational ...

Australia is leading the global battery storage boom with AUD 2.4B invested in Q1 2025. Discover how big batteries are replacing coal, ...

From the 2.4 GW Denman BESS to the 850 MW Bremer and Waratah Super Batteries, these seven BESS projects Australia alone will deliver tens of gigawatt-hours of storage across New ...

Discover five energy storage projects revolutionizing Australia's energy landscape. Learn about innovative technologies, impressive capacity.

Finnish energy giant Wärtsilä has announced the latest addition to its massive network utility-scale battery energy storage system (BESS) projects in Australia: a record ...

Investment in large-scale battery storage is on the rise. The projects store up renewable energy generated during the day that can be ...

The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total of A\$2.4bn (\$1.5bn) reaching the ...

Australia has a massive pipeline of grid-scale battery energy storage projects. 16.5 GW of new battery projects could arrive in the NEM in the ...

Many in our tally of the ten biggest battery projects in Australia have more than 10 times the storage capacity of Hornsdale. One will have nearly 15 times. Part of the reason is ...

Discover five energy storage projects revolutionizing Australia's energy landscape. Learn about innovative technologies, ...

The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total ...

Investment in large-scale battery storage is on the rise. The projects store up renewable energy generated during the day that can be used during peak periods. What's ...

Finnish energy giant Wärtsilä; has announced the latest addition to its massive network utility-scale battery energy storage system ...

Australia's clean energy transition has reached an important milestone. Five ARENA-funded large-scale battery storage system (BESS) projects, equipped with grid ...

Australia has a massive pipeline of grid-scale battery energy storage projects. 16.5 GW of new battery projects could arrive in the NEM in the next 3 years.
