---

They are available in multiple versions: 250 A without high-voltage interlock and 400 A/500 A with high-voltage interlock. Engineered to TE's high standards, HV battery ...

When designing a high-voltage solid-state battery disconnect switch, there are several fundamental design decisions to consider. Among the key factors are semiconductor ...

The Rincon High Voltage Battery Disconnect (HVBD) allows for the safe disconnection of high voltage traction packs. The HVBD features a robust ...

XD|GE utilizes a 2,600 square meter workshop with a production capacity of 2,000 units per year to produce high quality disconnect switches across a variety of voltage levels.

Discover our advanced High Voltage Battery Junction Box and Battery Management System for optimized safety, efficiency, and reliability in EV projects.

Our inventory includes high-voltage, heavy-duty battery disconnect switches, with options for single and dual batteries, handles or push buttons, and more.

TE offers battery disconnect switches that are designed to safely cut off battery power in HV applications. They come in various configurations ...

These switches are used to disconnect the main power or accessory system power for safe maintenance and battery shutdown in vehicles. The HV switches are ideal for high ...

Ideal for isolating high voltage and carrying current, our HVBDs safely disconnect high voltage battery packs

during maintenance and storage. If ...

Designed to meet the rigorous demands of the industrial and commercial transportation industry, our KISSLING High Voltage (HV) battery disconnect switches are the robust solutions to ...

Discover our advanced High Voltage Battery Junction Box and Battery Management System for optimized safety, efficiency, ...

When designing a high-voltage solid-state battery disconnect switch, there are several fundamental design decisions to consider. ...

These switches are used to disconnect the main power or accessory system power for safe maintenance and battery shutdown in ...

Designed to meet the rigorous demands of the industrial and commercial ...

TE offers battery disconnect switches that are designed to safely cut off battery power in HV applications. They come in various configurations and locking options.

Ideal for isolating high voltage and carrying current, our HVBDs safely disconnect high voltage battery packs during maintenance and storage. If your application requires make/break power ...
