The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the ...

In recent years, energy storage power stations in Croatia have gained momentum, driven by the country's commitment to renewable energy integration and grid stability. With its strategic ...

The Croatian battery news came in the wake of plans for a standalone utility-scale battery storage system in Serbia. The office of the Mayor of Leskovac revealed plans for a 125 ...

It was concluded that system flexibility and battery storage are essential components of the green transition and key to ensuring a stable and secure energy supply in ...

In November 2020, we contracted the development of the 1 MW battery storage system (BSS) that can store 1.44 MW of electricity. This turnkey project encompassed the final and detailed ...

The project comprises of the following four components: (i) Sub-transmission and distribution network reconstruction, reinforcement, and operations efficiency in the major load centers of ...

The project involves the construction of a sophisticated 60 MW battery energy storage system (BESS) combined with a virtual power plant (VPP) in Sibenik.

Croatia's Ministry of Environmental Protection and Green Transition has initiated the process to determine if a full environmental impact study is necessary for the proposed 99 MW ...
