Genera PR announced Monday that it intends to acquire battery energy storage systems (BESS) to support the island's electrical grid from Tesla Puerto Rico LLC.

The Puerto Rico Energy Bureau (PREB) has issued a resolution and order requiring the Puerto Rico Electric Power Authority (PREPA) to complete the Accelerated Battery Energy ...

This agreement is a crucial part of the Puerto Rico Accelerated Storage Addition Programme (ASAP). It's all about beefing up the island's grid by adding large-scale Battery Energy Storage ...

Through its September 2023 partial loan guarantee to Project Hestia, LPO also supports virtual power plant (VPP)-ready rooftop solar and battery storage installations in ...

Puerto Rico is set to commission the first projects of a total 430 MW of new BESS, which will replace gas-fired power plants on the island, before October 2025.

ASAP aims to enhance grid reliability across the island by deploying utility-scale battery energy storage systems (BESS) alongside existing generation facilities.

The project includes the construction and operation of a 158 MW battery energy storage system at the Aguirre Plant, located in the Aguirre neighborhood of the municipality of Salinas, Puerto...

The 1.75-hour duration battery energy storage system (BESS) project is being built alongside the Gundremmingen nuclear power plant, which is undergoing decommissioning, ...

Polaris Renewable Energy has officially submitted a standard offer agreement (SO1) for a battery energy
