What products does solar illuminations offer?

Solar Illuminations offers a large selection of commercial solar-powered lighting systems. Most of the products we offer are commercial grade kits that are designed specifically for your requirements.

Is solar lighting a good choice for your municipality?

Solar lighting solutions offer a zero-carbon emissions option, making them an ideal choice for Municipalities looking to reduce their environmental impact. Your municipality could save a small fortune by switching from tradition, grid-connected lighting to solar lighting. Solar lighting is easily the more cost effective option.

Are solar-powered outdoor lights a good idea for your municipality?

Around the world, municipalities are bolstering their infrastructure with solar-powered outdoor lights. Well lit parks, streets and facilities keep your community safe at night. But they also help turn your municipality into an accessible place where people feel welcomed.

Should you buy a commercial solar light?

One-size-fits-all solar lights can be a useful option for some applications, but if you want a solar light that performs reliably year-round, rain or shine, then you'll want a heavy-duty commercial solar-powered light. When you purchase a system from us, if you desire dusk to dawn illumination, that means dusk to dawn.
