What businesses are deploying Bess in Brazil?

A few other businesses exist in Brazil as well, such as Micropower, Aldo Solar and YouOn, for instance. The deployment of BESS can take various forms, and business initiatives may vary. To address this, the National Electric Energy Agency of Brazil (ANEEL) has identified a regulatory gap and initiated a three-phase roadmap.

How does Bess work in Brazil?

In May 2024, the Brazilian Ministries of Development and of Science and Technology issued an ordinance to provide tax and non-tax incentives for the production of BESS in Brazil. The ordinance establishes the concept of a 'basic production process' and a points-based system for lead and lithium batteries.

How many electric and hybrid vehicles are there in Brazil?

In Brazil, the number of electric and hybrid vehicles reached 10,600 units in 2018, according to data from the Brazilian Association of Automotive Vehicle Manufacturers (ANFAVEA).

Which companies are launching 'energy as a service' technology?

So far, only a few projects or businesses have been disclosed, namely: (i) ISA CTEEP, with batteries imported from China; (ii) Vale, with lithium-ion batteries supplied by Tesla; (iii) Neoenergia, also with lithium-ion batteries; and (iv) Matrix Energia, which started offering an 'energy as a service' storage solution while partnering with Huawei.

Explore Brazil's battery energy storage systems, focusing on current regulations, investment opportunities, and the role of these systems in the energy transition.

The Brazilian government plans to include batteries and other forms of energy storage to compete in energy auctions which are set to happen in the first half of 2024, an ...

Companies are investing in R& D to localize battery manufacturing and diversify chemistry options. Businesses in Brazil are adopting behind-the-meter storage to manage ...
