RG& E has developed a request for proposal (RFP) to procure a minimum of 10 MW of energy storage projects to be in service by December 31, 2030. This initiative will help meet energy ...

Streamlined solar and energy storage buying process through the use of a proven cooperative procurement program. Free project feasibility study and savings analysis for any public agency ...

Built in a 40ft High Cube foldable container, this all-in-one portable system is tailored for long-term off-grid operations requiring ultra-high capacity and energy security.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

While the energy storage market continues to rapidly expand, fueled by record-low battery costs and robust policy support, challenges ...

While the energy storage market continues to rapidly expand, fueled by record-low battery costs and robust policy support, challenges still loom on the horizon--tariffs, shifting ...

For solar-plus-storage--the pairing of solar photovoltaic (PV) and energy storage technologies--NLR researchers study and quantify the economic and grid impacts of ...

With virtual power plants (VPPs) becoming mainstream, storage isn't just about backup power anymore. Imagine if your battery arrays could generate revenue through grid services while ...
