power station is owned and is being developed by the Government of ...

You know how people keep saying Africa's energy future lies in solar? Well, the Ouagadougou Energy Storage Power Station just made that vision 37% more achievable. Operational since ...

Discover how Faso Energy, Burkina Faso's first solar panel factory, is driving West Africa's clean energy shift, boosting energy independence, and creating local jobs.

**Summary**  
**Location**  
**Overview**  
**Funding and timeline**  
**Other considerations**  
The Donsin Solar Power Station is a 25 megawatts solar power plant under development in Burkina Faso. The power station is owned and is being developed by the Government of Burkina Faso, through the Ministry of Energy, Mines and Quarries. The off-taker of the power generated here is Sociéte Nationale d'Electricité du Burkina Faso (SONABEL), the Burkinabe national electricity utility company. The project received funding support, in the form of a EUR45.7 million concessional loan

The solar farm is planned to be co-located with a 50-MW battery energy storage system (BESS). The site is expected to begin commercial operations in the last quarter of 2027.
