Check That Your Base Station Is Plugged Into A Working Outlet
Check The Ethernet Cable
Switch Your Wi-Fi Band
Bring Your Router Closer to The Base Station
Restart Your Router
Reboot The Base Station
Update The Ring App
Check and Update Your Base Station Firmware
If your router is positioned too far from the Base Station, the Wi-Fi signal strength may be weak. As a result, the Base Station may disconnect from it and thus show offline in the app. You can fix this issue by bringing the devices closer. You may also consider getting a Wi-Fi extender to extend your Wi-Fi network coverage in your home. See more on smarttechtville Arlo My Arlo SmartHub or base station is offline; how ...
