Eku Energy has finalized financing for its 250 MW/500 MWh energy storage system in Canberra, contributing to the energy security of the ACT and its ...

The ACT Government has reached a major milestone in its work to future-proof Canberra's energy supply. The development application has been approved to deliver Stream ...

It is designed to help future-proof Canberra's energy supply and generate about 180 to 200 jobs. The complex - including the battery, substations and power lines - will be ...

The large-scale battery storage system will deliver 250 megawatts (MW) of power, store renewable energy and support grid reliability. Enough energy to power one-third of ...

A backup power fuel cell for telecom applications A portable emergency power generator in a shipping container An emergency power system is an independent source of electrical power ...

Eku Energy has finalized financing for its 250 MW/500 MWh energy storage system in Canberra, contributing to the energy security of the ACT and its ambitious climate goals.

Over the next year, three new community-scale battery energy storage systems (BESS) will be deployed across Canberra to optimize solar energy usage, stabilize grid ...

In partnership with Eku Energy, construction is underway on concrete bases for the batteries and the main switching building at ...

across Canberra to optimize ...

The Big Canberra Battery project will provide renewable energy security across the electricity grid, help the ACT grow its renewable energy sector, provide more local ...

The ACT Government has reached a major milestone in its work to future-proof Canberra's energy supply. The development application has been approved to deliver Stream 1 of the ...

The large-scale 250 megawatts (MW) battery will store enough renewable energy to power one-third of the city of Canberra for two hours during peak demand, helping to ...

A backup power fuel cell for telecom applications A portable emergency power generator in a shipping container An emergency power system is ...

The large-scale 250 megawatts (MW) battery will store enough renewable energy to power one-third of the city of Canberra for ...

The ACT Government has reached a major milestone in its work to future-proof Canberra's energy supply. The development ...

In partnership with Eku Energy, construction is underway on concrete bases for the batteries and the main switching building at Williamsdale. The large-scale battery energy ...
