---

Discover how a 40kWh solar battery provides reliable backup and energy savings for commercial sites and large homes. See pricing and benefits.

A self-contained, transportable hybrid generator available for rent, delivering 24/7 off-grid power with integrated solar, battery storage, and backup generation.

Over the next year, three new community-scale battery energy storage systems (BESS) will be deployed across Canberra to optimize ...

Housed in durable shipping containers, our systems are engineered to meet the growing demand for renewable integration, backup power, and off-grid energy supply.

This allows renewable energy to flow to homes and business across Canberra when demand is high and solar generation drops. Construction is now underway on concrete ...

The H10GP-M-30K40 delivers 30kW of solar generation and 40kWh of storage, housed in a 10ft mobile foldable container. Using high-efficiency 480W panels, it's engineered for mid-size off ...

Australia's capital is stepping into the renewable energy spotlight with its ambitious Canberra energy storage reservoir project.

This 250-megawatt (MW), 500 megawatt-hour (MWh) battery energy storage system (BESS) is part of the Big Canberra Battery project and can store enough renewable energy to power one ...

Over the next year, three new community-scale battery energy storage systems (BESS) will be deployed

across Canberra to optimize solar energy usage, stabilize grid ...

Whether you're located in Canberra, Queanbeyan, Bungendore, Yass, Goulburn, or surrounding areas, our battery storage systems are tailored for local homes, weather ...

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a more sustainable energy future.
