-----

Powerchina has finished the 200 MW Guayepo III solar farm in northern Colombia, connecting it to the grid six days ahead of schedule for Italian utility Enel.

On January 23, 2025, the first green space project invested and constructed by China Three Gorges Corporation in Colombia, the Paranoa Phase I photovoltaic power station, successfully ...

The project, located in Colombia, marks the full grid integration phase, following construction and energization activities managed by the Chinese engineering contractor.

The project features over 457,000 panels across 688 hectares and forms part of a 486.7 MW complex with Guayepo I and II -- one of the country's largest solar clusters.

POWERCHINA currently has 10 photovoltaic projects under construction in Colombia, with a total installed capacity of 567 MW. In addition to driving ...

A revamp of China's electricity market is boosting the economics of storing power just as international demand surges.

Chinese engineering group Power Construction Corporation of China (PowerChina) said it has carried out full grid connection of the 180-MWac Guayepo III solar ...

POWERCHINA currently has 10 photovoltaic projects under construction in Colombia, with a total installed capacity of 567 MW. In addition to driving the export of Chinese technology and ...

In a minimal proportion to solar, wind, and it is not present in all countries as in Argentina and Colombia. The region has a common goal of electrification, regardless of the ...

Chinese engineering group Power Construction Corporation of China (PowerChina) said it has carried out full grid connection of the 180 ...

The 23 MW project, constructed by PowerChina and supplied with JA Solar modules (headquartered in China), represents a milestone in renewable energy integration.

The first circuit of the 108 Megawatts Tepuy Photovoltaic Project, undertaken by POWERCHINA, successfully achieved grid connection and began generating electricity in Colombia on Feb 21.

On January 23, 2025, the first green space project invested and constructed by China Three Gorges Corporation in Colombia, the Paranoa Phase I ...
