Who can subscribe to a community solar project?

Anyone can subscribe to a community solar project as long as the project is in their utility and is not fully subscribed. In some cases, interzonal crediting restrictions still exist for projects that operate under net energy metering (NEM).

How do I find a community solar project provider?

Explore the projects. Community solar project providers are listed alphabetically with a link to their website. Each icon on the map shows a project's location, the provider's name, the savings rate, and if the project is prioritizing low-to moderate-income residents.

What is a community solar provider?

A community solar provider is a company that organizes, owns, and/or operates a community solar project. A provider may also be called a sponsor, developer, or asset owner.

Who can subscribe to a community solar project in New York?

The New York State Department of Public Service (DPS) is the regulatory agency responsible for ensuring safe, reliable service and reasonable rates for customers. Anyone can subscribe to a community solar project as long as the project is in their utility and is not fully subscribed.
