-----

We've long had a reputation as a provider of never-before-seen power products -- and will offer you all the engineering and manufacturing ...

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ...

We're excited to expand this pillar with the addition of Centum(TM) Force, the next generation of containerized generator sets that establish new benchmarks in footprint optimization, layout ...

Factory pre-integrated and customizable per site requirements, the new Cummins Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower ...

We're excited to expand this pillar with the addition of Centum(TM) Force, the next generation of containerized generator sets that establish new ...

A III phase, auto excited and auto regulated, synchronous and brushless type Leroy Somer alternator is available as standard with an optional Permanent Magnet Generator (PMG) for ...

Discover how selecting the right container generator box size impacts efficiency, scalability, and cost for power generation projects.

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application ...

At CPS, we specialise in offering high-quality bespoke containerised generator sets ranging from 110kW to 3.5MW for Diesel, LPG, CHP, and NG Gas applications. Our containerised solutions ...

We've long had a reputation as a provider of never-before-seen power products -- and will offer you all the engineering and manufacturing support you need to customize your generator ...

This article will explore the key elements in the design of containerized diesel generator sets, from power output and interface configuration to noise reduction, protection, ...

The objective of this class guideline is to provide guidance and ensure uniform interpretation of the applicable requirements for time limited installation of generator sets in container on board.

Container power generators are available with a rated capacity of 30 kVA to 3000 kVA. Depending on the asked performance and execution, the generators are mounted in ...
