What is a containerised generator set?

On a regular basis, containerised generator sets (CGS) are placed on board ships to provide replacement power in case of a damage to one of the ship's generator sets, or additional power, e.g. to provide power to extra deck equipment or reefer containers. There are currently no clear rules and requirements for such time limited installations.

What is a shipping container generator?

Housed within standard shipping containers, these generators offer a seamless integration of the generator set and its associated equipment, providing a robust solution that combines aesthetics with functionality.

What is a containerized diesel generator?

Discover the containerized diesel generators at DINGBO Power, offering a mobile and secure power solution for a wide range of applications. These generators are housed in robust containers, providing enhanced security and portability. Ideal for use in remote, outdoor, or temporary sites, they ensure reliable power delivery in any setting.

Can a diesel generator be connected to a refrigerated container?

SEA BOX's selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect to a local power source. Diesel Generator designed to mount on the front of a refrigerated container. Diesel Generator set designed to clip on to the front frame of a refrigerated container.

This Cummins QSK60 Series Containerized Generators is a fully integrated, robust power generation system that sets new benchmarks in performance, reliability, and efficiency for ...

These generators are housed in robust containers, providing enhanced security and portability. Ideal for use in remote, outdoor, or temporary sites, they ensure reliable power delivery in any ...

Most large ships such as container vessels, LNG carriers and tankers are powered by two-stroke main engines. When they additionally have a shaft generator system, this can ...

These generators are housed in robust containers, providing enhanced security and portability. Ideal for use in remote, ...
