**Are collapsible containers airworthy?**

Yes, all our collapsible containers comply fully with civil aviation regulations. They are completely airworthy, and they can be restrained directly by the Cargo Loading System of any compatible aircraft. Are special tools needed to operate a collapsible ULD? You don't need any special tools to operate our collapsible containers.

**What is a collapsible container?**

Collapsible containers can be used to transport cargo in the usual way, but they can also be folded and stacked when you need to store or reposition them. This feature maximises your ULD storage capacity and lets you relocate empty ULDs more efficiently and cost-effectively, which in turn helps rebalance ULD stocks around the world.

**Can air cargo containers be folded and stacked when empty?**

To create certified air cargo containers that can be folded and stacked when empty. Now you don't need to leave your ULDs halfway around the world because a return flight is too expensive. And you can take one step closer to zero-carbon flying. World's first inflatable solution for Unit Load Devices is still in development.

**Should you use a collapsible & stackable container?**

Finding sufficient storage space in various locations around the world is a constant frustration for ULD fleet managers, particularly when containers are empty. But with a collapsible and stackable container there's a way to dramatically reduce the amount of valuable space your containers take up when they're not being used.

Unlike traditional containers, which maintain a fixed shape and size, collapsible containers can be folded down when empty. This innovative design reduces shipping costs ...

Leasing containers from Shams Arabia is not only cost-effective but also gives you the flexibility to choose

the right container type and size for your specific requirements.

The AviusULD collapsible S-series AKE models also unlock enormous efficiency improvements for airlines. Specifically, lower weight ...
