Czechia has significantly reformed its Energy Act, doubling the mandatory licensing threshold for small-scale solar and simplifying rules for co-located battery storage.

This initiative is a clear signal of the growing importance of energy storage in balancing grids and integrating renewable energy sources like solar and wind.

An amendment to Czechia's Energy Act has raised the threshold for mandatory electricity generation licences from 50 kW to 100 ...

Boosting energy storage will allow Czechia to improve its energy security and reduce reliance on gas and coal imports, two key sources in its current energy mix. Moreover, ...

The European Commission has given the go-ahead to a scheme in the Czech Republic that will support 1.5GWh of energy storage projects.

The project's innovative design includes a battery storage system with a capacity of 4MW to 8MW, a photovoltaic power plant leveraging the solar panel manufacturing process, ...

To meet the demanding requirements of the Czech grid, AlphaESS is supplying the Aster 5000, a 5MWh liquid-cooled energy storage system designed for reliability, rapid ...

This initiative is a clear signal of the growing importance of energy storage in balancing grids and integrating renewable energy ...

Over 600 attendees sharing best practices, opportunities and challenges for corporate renewable energy power purchase agreements (PPAs), business strategies for decarbonization in ...

An amendment to Czechia's Energy Act has raised the threshold for mandatory electricity generation licences from 50 kW to 100 kW for solar installations generating power ...

Grants cover up to 30% of eligible solar installation costs and up to 50% for energy storage if applicants meet program requirements. ...

Solarvance is ready to support Czech partners and customers with efficient, EU-compliant solar solutions, including hybrid and storage systems, tailored for Central European conditions and ...

Grants cover up to 30% of eligible solar installation costs and up to 50% for energy storage if applicants meet program requirements. Businesses must also submit a verification ...

The European Commission has given the go-ahead to a scheme in the Czech Republic that will support 1.5GWh of energy storage ...
