-----

At Maxbo Solar (), we specialize in designing and manufacturing BESS Containers that are specifically engineered to excel in the EU's 2026 regulatory landscape.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

We create an independent container equipped with a 3 [kW] inverter and 3.84 [kWh] energy storage. This concept does not require connection to the grid. The containers cannot be ...

Navigate the EU market for solar inverters. Understand export dynamics, 17% EU sales tax, and crucial sea shipping packaging requirements for successful market entry.

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly ...

When it comes to the transportation of delicate and valuable equipment like solar inverters, proper packaging and shipping practices are essential to prevent damage and ensure successful ...

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The ...

Based on advanced lithium battery technology, lithium battery containerized energy storage systems are equipped with standardized inverter equipment and monitoring ...

It is housed in a standard shipping 20ft or 40ft container which makes it easy to transport via land, air, or sea. Once it arrives on location, the ConSOL can be deployed immediately to generate ...

Complete logistics for solar panels and inverters. Storage, transport, customs & VAS with real-time insight and personal guidance.
