D120-48 Din-Rail Power supply AC-DC Ultra DIN rail PSU;Output 48V 2,5A Produktnr 137216 D240-48  
Din-Rail Power supply AC-DC Ultra DIN rail PSU;Output 48V 5A Produktnr 137218 ...

Our utility-scale energy storage seamlessly integrates with critical energy systems, driving revenue with optimised assets and delivering proven reliability, flexibility, and safety. We have ...

Growing energy demand means the U.S. will almost certainly have to expand its electricity grid in coming years. What's the best way to do this? A new study by MIT ...

With over 40 years of experience in renewable energy, RES continues to lead the way in delivering innovative storage solutions that ...

Multiple AC & DC output sockets types let users continuously have power support in home appliances during AC blackouts. FSP Group specializes in power supply design for decades, ...

MIT engineers developed a membrane that filters the components of crude oil by their molecular size, an advance that could dramatically reduce the amount of energy needed ...

Powermec AB is a solution-oriented and value-creating partner with extensive experience and a comprehensive range of products and solutions in power supply, electric motors, and ...

The new Schmidt Laboratory for Materials in Nuclear Technologies (LMNT) at the MIT Plasma Science and Fusion Center accelerates fusion materials testing using cyclotron ...

Established in 1982, MEAN WELL is the leading manufacturer of standard switching power supplies.

From 3W to 50kW, our AC-DC power supplies are designed to meet international standards for EMC, safety, and energy efficiency, with compatibility and reliability assured.

Eliq is a Swedish tech company that specializes in the analysis and visualization of energy data.

With over 40 years of experience in renewable energy, RES continues to lead the way in delivering innovative storage solutions that support the integration of renewable power ...

Powermec AB is a solution-oriented and value-creating partner with extensive experience and a comprehensive range of products and ...

Giving people better data about their energy use, plus some coaching, can help them substantially reduce their consumption and costs, according to a study by MIT ...

The MIT Energy Initiative's annual research spring symposium explored artificial intelligence as both a problem and solution for the clean energy transition.

Unlocking its secrets could thus enable advances in efficient energy production, electronics cooling, water desalination, medical diagnostics, and more. "Boiling is important for ...
