How is Gothenburg shaping the new battery industry?

In Gothenburg we are shaping the new battery industry. In the coming years Gothenburg and West Sweden will have in place two battery gigafactories, with major investments being made by public and private actors, including Volvo Cars and the Volvo Group. The region is set to become an important hub for both battery development and production.

How is Gothenburg reskilling the battery industry?

Reskilling and upskilling initiatives for the region's new battery industry are also underway. Among them is a unique education and training centre which has opened in Gothenburg, specifically for the battery value chain. Around 7,000 people will be trained in state-of-the-art facilities between 2024 and 2029.

Why is Gothenburg a hub for R&D?

As a hub for R&D, Gothenburg offers excellent possibilities for testing and many platforms for collaboration. For example, the largest of three facilities for SEEL Swedish Electric Transport Laboratory, Sweden's testbed for electromobility, is located in Gothenburg.

Is Gothenburg paving the way to an emission-free mobility system?

Gothenburg Green City Zone is another testbed paving the way towards an emission-free mobility system. Businesses, academia and public actors are testing new innovative solutions within a number of zones within the city that can be quickly scaled up. Wireless charging of electric taxis is one of the test and development projects underway.

Enequi is a Swedish manufacturer specializing in intelligent energy storage solutions, including their QuiPower system, which offers reliable and sustainable energy supply for both private ...

Together with industry partners it carries out leading research on, for example, battery materials, energy

storage and battery manufacturing. It also hosts the Swedish Electromobility Centre, a ...

Gothenburg is leading Scandinavia's clean energy transition with a groundbreaking battery storage initiative. This article explores the companies driving this project, its technological ...

Together with industry partners it carries out leading research on, for example, battery materials, energy storage and battery manufacturing. It ...

We are Capture Energy, an energy storage solutions company dedicated to bringing good energy to our customers. Our impact goes beyond megawatts - it drives progress and powers our ...

This article delves into the top 10 energy storage companies in Sweden, which include key developers and investors who are delivering ...

This article delves into the top 10 energy storage companies in Sweden, which include key developers and investors who are delivering innovative solutions. This dynamic ...

Summary: Explore how tailored energy storage cabinets address industrial needs in Gothenburg, Sweden. Discover trends, case studies, and why customization matters for sustainable ...

Battery energy storage system operates to fulfill the energy grid stabilization requirements in Sweden.

NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery factory in Torslanda, Gothenburg.

Summary: Discover the leading portable power supply manufacturers in Gothenburg driving innovation in renewable energy storage, industrial backup systems, and consumer solutions. ...

This article explores the role of manufacturers in Gothenburg--a hub for green technology--in developing cutting-edge power storage solutions that ensure reliability during outages and ...

NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery ...
