Ha Minh Hiep, Chairman of the Commission for Standards, Metrology and Quality (STAMEQ), made this clear at a workshop held in Hanoi on June 26, which focused on ...

This study analyses and anticipates the challenges that may arise in frequency stability in Vietnam's power system by 2030, when the renewable energy integration is ...

Hanoi (VNS/VNA) - Vietnam needs to consider the development of battery energy storage system (BESS) while the country ...

There are many types of energy storage technology with different applications in modern energy systems. This paper provides an up-to-date review of these storage ...

Among the key objectives were the upgrade of the power transmission and distribution system, acceleration of the roadmap to build a smart power system, and development of an energy ...

The Institute of Energy (under the Ministry of Industry and Trade) presented Viet Nam's policy directions, highlighting the role of energy storage in demand response and ...

Abstract: Vietnam's rapid expansion in renewable energy, particularly solar and wind, necessitates the adoption of Battery Electricity Storage Systems (BESS) to address the ...

Why should you choose energy storage solutions? Whether you're seeking off-grid independence or grid-connected benefits, we provide reliable Energy Storage Solutions that ensure ...

At the heart of this transformation is Vietnam Electricity (EVN), the state-owned giant managing 98% of the
