When will Italy's new energy storage capacity procurement auctions take place?

Terna's thinking ...The date is set. The first of Italy's new energy storage capacity procurement auctions (MACSE) will take place on September 30,2025,Terna's president for grid development strategies,Francesco Del Pizzo,has confirmed.

Is MACSE a risk-averse investment in Italian energy storage?

From ESS News 2025 is set to see rapid growth in investment in the Italian energy storage sector,led by battery energy storage systems (BESS),with the implementation of MACSE. The eagerly anticipated procurement exercise will offer a stable,predictable premium over 15 years,making it particularly attractive for risk-averse investors.

What is the electricity storage capacity procurement mechanism (MACSE)?

The Electricity Storage Capacity Procurement Mechanism (in Italian "Meccanismo di Approvvigionamento di Capacit  di Stoccaggio Elettrico": MACSE) is a regulatory initiative aimed at fostering the growth of electricity storage capacity in Italy.

How much does it cost to build a storage system in Italy?

Storage developers will receive an average price of nearly 13,000 euros (\$15,240) per megawatt hour per yearfor the storage capacity made available to Terna,well below a ceiling of 37,000 euros per MWh. As its production of intermittent wind and solar grows,Italy needs to increase its storage capacity to make the grid more stable.

MILAN, Oct 1 (Reuters) - Italy awarded all 10 gigawatt hours of the capacity it tendered in its first battery storage auction, recording an average price ...

Italian TSO Terna has decided to postpone its first auction for the procurement of energy storage capacity until

later this year. MACSE had been supposed to take place in July, ...

You've probably heard about Italy's latest energy storage auction results--but do you know what they really mean for Europe's green transition? In March 2025, Italy awarded 1.2 GW of grid ...

Italian Electricity Grid Terna has recorded more than 100 GW of requests to participate in the energy storage auction scheduled before summer 2025.

The first of Italy's new energy storage capacity procurement auctions (MACSE) will take place on September 30, 2025, Terna's president for grid development strategies, ...

Energy market analytics specialist Aurora Energy Research has published a new report focusing on the auction system of the Electricity Storage Capacity Procurement ...

MILAN, Oct 1 (Reuters) - Italy awarded all 10 gigawatt hours of the capacity it tendered in its first battery storage auction, recording an average price well below the cap set by the...

Summary: Milan's new energy storage power station tender highlights Italy's push toward renewable integration. This article breaks down the project's scope, technical requirements, ...

The first of Italy's new energy storage capacity procurement auctions (MACSE) will take place on September 30, 2025, Terna's ...

2025 is set to see rapid growth in investment in the Italian energy storage sector, led by battery energy storage systems (BESS), with the implementation of MACSE.

2025 is set to see rapid growth in investment in the Italian energy storage sector, led by battery energy storage systems (BESS), ...

This document analyzes available electric storage technologies and identifies reference technologies, those deemed feasible and capable of meeting identified electric storage ...

Let's face it - Italy isn't just about pasta and Renaissance art anymore. The country's energy storage sector has become Europe's dark horse, with power supply ...
