LDES projects include pumped storage hydro, compressed air and liquid air energy storage and flow batteries. AG's Energy team looks at the detail behind the scheme proposals ...

This post investigates the state of the UK battery storage pipeline, year-to-date figures and an insight into the appetite to develop ...

This project assesses the optimal mix of electricity storage technologies in the UK from 2030 onwards under various scenarios. Using GAMS and data from ENTSO-E and NESO, it ...

In March 2024, the House of Lords Science and Technology Committee said increasing the UK's long-duration energy storage capacity would support the UK's net zero ...

To deliver for Londoners, we need to retrofit our leaky building stock on mass. This means installing new energy efficiency measures to cut heating costs and stepping-up renewable ...

Meet the unsung hero: the London energy storage system. As the UK's largest electricity consumer, London guzzles 20% of the nation's power - enough to charge 15 million ...

To quantify the need for large-scale energy storage, an hour-by-hour model of wind and solar supply was compared with an hour-by-hour model of future electricity demand.

As London races toward its 2030 net-zero targets, the city faces a pressing question: What's the optimal energy storage configuration ratio to support its growing renewable infrastructure?

The outlook for BESS projects in the UK is promising, with a significant pipeline of projects anticipated. The

BESS pipeline not only entails a rise in the number of projects but also ...

This post investigates the state of the UK battery storage pipeline, year-to-date figures and an insight into the appetite to develop over time. Battery storage is essential for ...

In March 2024, the House of Lords Science and Technology Committee said increasing the UK's long-duration energy storage ...

A record number of renewable energy projects were given the go-ahead in Great Britain in 2025, after planning approvals almost doubled year on year, according to an ...
