Where is Estonia's largest battery storage facility located?

The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.

How will a battery energy storage park work in Estonia?

The battery energy storage park and its substation will be connected to the electricity transmission network using a 330kV AC underground cable, marking a first in Estonia. Baltic Storage Platform confirmed that the BESS will seek to ensure the stability and resilience of the Estonian electricity grid.

Where are TSO Elering's emergency power plants located?

As previously reported by Energy-Storage.news, the two projects will be in Kiisain the Saku Rural municipality and Arukylä in the Raasiku Rural municipality and will provide emergency reserve power. Kiisa is the location of an emergency power plant operated by TSO Elering.
