-----  
What is an off-grid container home?

A 640 sq ft off-grid tiny home with inverter options, delivering sustainability and comfort in a compact design. Perfect for reducing utility costs and enjoying peaceful, off-grid living. In 2024, we proudly launched our line of off-grid container homes to promote energy-conscious, independent living.

Why should you buy an off-grid home?

**Location & Versatility:** Off-grid living allows you to live anywhere without worrying about public utilities. Container homes make it possible to create a secluded retreat or a remote homestead. Built to comply with building codes, they offer the versatility needed for any location. **Affordability:** Save thousands each year with no utility bills.

Who is custom container living?

Founded by Robert Wagoner in 2015, Custom Container Living is dedicated to delivering exceptional, environmentally conscious homes. From solar power integration to innovative water systems, our homes are designed to help you reduce your reliance on external resources and thrive off the grid.

How long does it take to fold a solar panel?

Folding solar panel inside the container can be unfolded or stowed in as little as 1h (the time does not vary for different photovoltaic containers). Advanced monitoring systems and IoT integration ensure optimal performance and remote management capabilities.
