Who is solarlux glazing?

Solarlux is a premium German manufacturer of glazing products. They were the inventor of the modern bifolding glass door and have remained at the forefront of glazing technology ever since. All Solarlux products are fully manufactured to order at their campus in Melle, Germany.

What is a solarlux Wintergarden glass extension?

Heat Insulated A Solarlux Wintergarden glass extension has high levels of thermal efficiency, with low U-values, which allow it to be used all year round and become part of your everyday living space, even in the coldest weather. The integrated bifolding or sliding doors allow you to open up your space in warm weather and help it to stay cool.

Are solarlux doors secure?

As you'd expect from a German company, security is a high priority at Solarlux, and all doors & windows are tested to the rigorous European RC2 standard and beyond. The SL60 and SL80 bifold doors also have Secure by Design, a British standard created by the Association of Chief Police Officers.
