About 76 per cent of solar and wind power projects in the G7 countries were commissioned within the originally planned time frame. In ...

Of the top twenty countries, only five had growth rates well above the global average: China with 18,3%, Brazil with 19,0%, Finland (20,3%), Australia (27,5%) and Argentina (16,6%).

Net additions of global top owners' wind and solar assets reached a record high of 113 GW by Jan. 1, 2023, marking a 28% growth from the previous year. Collectively, global top ...

Solar and wind continue to dominate, representing 86.7% of new global capacity additions in 2024. Capacity has grown more than fourfold (466%) between 2014 and 2024.

These countries were also among the top in total installed onshore wind capacity by the end of 2024, with China representing 46% of the global total, the United States - 15%, Germany - ...

Net additions of global top owners' wind and solar assets reached a record high of 113 GW by Jan. 1, 2023, marking a 28% growth ...

Accelerating energy transition towards renewables is central to net-zero emissions. However, building a global power system dominated by solar and wind energy presents ...

About 76 per cent of solar and wind power projects in the G7 countries were commissioned within the originally planned time frame. In China, this figure drops to 55 per ...

has grown more than ...

Here, we outline an optimized, phased pathway for integrating solar and wind energy into a globally interconnected and fully coordinated power system.

Weight of solar and wind in electricity production data. Data for solar and wind renewable energies in electricity production available in a map and excel file by country level.

Here, we outline an optimized, phased pathway for integrating solar and wind energy into a globally interconnected and fully coordinated ...

Comparing the share of global GDP and under-construction projects for G7, China, and the rest of the world illustrates an asymmetry for utility-scale solar and wind projects.

This report aims to provide a comprehensive presentation of the global market for Solar Container Power Systems, focusing on the total sales volume, sales revenue, price, key companies ...
