-----

We look at five early-stage storage technologies that could one day help to underpin a new economy powered by near-limitless zero-carbon renewable energy.

Dr. Isabel Green completed her Obstetrics & Gynecology residency at John Hopkins University and fellowship in Minimally Invasive Gynecologic Surgery at Georgetown University-MedStar. ...

New York Gov. Kathy Hochul has launched New York's first bulk energy storage request for proposals (RFP), intended to procure 1 GW of bulk energy storage as part of New ...

Indocyanine green injection is used to help diagnose or find problems in your blood vessels, blood flow and tissue perfusion before, during, and after a surgery or transplant, bile ...

Color blindness is usually inherited, meaning it's passed down through families. Men are more likely to be born with color blindness. Most people with color blindness can't tell ...

Urine can turn green due to a medicine for pain and arthritis symptoms called indomethacin (Indocin, Tivorbex). Green urine also can be caused by propofol (Diprivan), a ...

As the world transitions to decarbonized energy systems, emerging long-duration energy storage technologies will be critical for supporting the widescale deployment of ...

Diagnosis Your health care provider will likely ask you about your health and do a physical exam. You also may need tests, including: Urinalysis. This test checks the urine for ...

Green stool -- when your feces look green -- is usually the result of something you ate, such as spinach or dyes in some foods. Certain medicines or iron supplements also can ...

Smart, affordable, and resilient: New York State is investing in energy storage systems to help modernize the electric grid and reduce carbon emissions.

Stool color is generally influenced by what you eat as well as by the amount of bile -- a yellow-green fluid that digests fats -- in your stool. As bile travels through your digestive ...

Energy storage plays a critical role in supporting New York's zero-emission electric grid by enabling the integration of large quantities of renewable energy, helping to smooth ...

Is it red or is it green? Learn more about what causes this common eye condition and how to tell whether you can distinguish between certain shades of color.

Adding bulk energy storage to New York's grid will lower costs, optimize the generation and transmission of power, enhance energy grid infrastructure, and ensure the ...

Elevate Renewables has completed contracting to construct a battery storage facility to store power during non-peak hours and discharge power during peak demand ...

Through the Clean Energy Program, DCAS works to expand distributed energy resources, including solar PV and energy storage installations across the City's portfolio of properties.
