What is a hybrid solar inverter?

Like regular string solar inverters, hybrid inverters convert solar DC power from strings of solar panels to AC (alternating current) power used to power your home. However, unlike solar inverters, excess solar energy is used to charge a connected battery system or exported to the electricity grid. Household loads first, grid export last.

What are the best solar inverters?

Shop high-efficiency solar inverters for off-grid, hybrid, and grid-tie systems. Find top brands like EG4, Growatt, and Victron for reliable power conversion.

Does sigenergy have a hybrid inverter?

Notably, Sigenergy is the first company to release a fully integrated hybrid system that combines solar, battery storage, and bidirectional EV charging into a single unit. At its core is the hybrid inverter, available in single-phase and three-phase models ranging from 5kW to 25kW. All inverters support 200% solar oversizing.

How do I choose a hybrid inverter?

When evaluating a hybrid inverter, it's important to inquire about these capabilities and how they can be customized to suit your needs and preferences. Jason Svarc is an accredited solar and battery specialist who has been designing and installing solar and battery systems for over a decade.
