What is a high voltage circuit breaker?

A high voltage circuit breaker is an electrical device designed to protect high voltage power systems by interrupting the flow of electricity during fault conditions, such as short circuits or overloads. It operates by detecting abnormal current levels and quickly opening the circuit to prevent damage to equipment and ensure safety.

Where can I find a high-voltage circuit breaker?

Please refer to our Privacy Policy for details on how DirectIndustry processes your personal data. Find your high-voltage circuit breaker easily amongst the 67 products from the leading brands (Allen Bradley, Redler Technologies, Pomanique, ...) on DirectIndustry, the industry specialist for your professional purchases.

What are the different types of high voltage breakers?

We classify our high voltage breakers primarily into: live tanks and disconnecting circuit breakers (DCBs); and dead tanks and dead tank compact (DTC). Both categories include Blue products which use zero F-gases. Let's take a closer look on our circuit breakers!
