Where can I buy a hybrid inverter?

Thanks to our cooperation with Europe's leading distributors in the solar and photovoltaic trade, we at Solartraders can guarantee permanently low prices. In our range you will find hybrid inverters from all leading manufacturers in the industry, such as Huawei, SMA or Fronius.

What is a hybrid inverter?

Hybrid inverters combine several functions in one device: they convert direct current (DC) from PV modules into alternating current (AC) for domestic use, control the charging and discharging of batteries and optimize the energy flow in the system. A particular advantage of the technology is the so-called "peak shaving" function.

What is a good we inverter?

GoodWe - GoodWe stands for user-friendly, flexible hybrid inverters that are perfect for small and medium-sized PV systems. These suppliers are known for their high product quality and innovative technology and offer solutions for a wide range of requirements.

What types of inverters are available?

In our webshop you will find both single-phase and three-phase hybrid inverters, with 1, 2, 3, 5 or 9 MPPTs and different numbers of strings. All capacity classes are represented, whether small with 2, 5 or 10 kW, medium with 15, 20, 25 or 30 kW, or large with 50 or up to 100 kW, so that even large projects can be easily realized.

Factory direct price, fast Delivery. Buy high quality Hybrid inverters from over 10 results on Globalsources .
