How did radio communication affect the Battle of Tarawa?

Poor radio communications were a significant factor in the Battle of Tarawa. It contributed to the difficulties faced by the Americans, prolonged the fighting, and increased the death toll. This has been mentioned in various books and documentary videos about the battle.

How many tanks were present at Tarawa?

At Tarawa, there were 14 tanks of Company C, 1st Corps Medium Tank Battalion, led by 1st Lieutenant Edward L. Bale in his tank China Gal. These tanks were equipped with an old type of radio set designated RU-GF, with a separate receiver (RU) and transmitter (GF).

What was a key aspect of the Battle of Tarawa?

One of the lessons of Tarawa was that reliable radio communications were vital in order that commanders could communicate with the ships, aircraft, tanks, landing craft and infantry taking part. The story of the Battle of Tarawa has been told many times in books and documentary videos.

When did the Marines begin their attack on Tarawa?

At dawn on November 20, 1943, U.S. Marines unleashed their first amphibious attack in the Central Pacific Theater. This was a daylight landing on the beaches of Betio Islet, Tarawa Atoll, in the Gilbert Islands. Faulty radio communications compounded the difficulties encountered by the Marines during operations on Tarawa.

Going into Saipan there were 6 TBY's in service. At the battalion headquarters level we had one TBX powered by a generator. It usually was carried by 4 men and consisted ...
