-----  
Where can I find information about a hydrogen fueling station?

Existing and planned hydrogen fueling stations in the U.S. are available to view on a map or download as a spreadsheet from the Alternative Fuels Data Center. The site includes information regarding location, accessibility, hours of operation, and payment method.

How do I find a number of hydrogen stations?

Roll over a state on the map for count of hydrogen stations. To map hydrogen stations near a specific address or city, use the Alternative Fueling Station Locator. For station counts and historical information, see Station Counts by State. Find maps and charts showing transportation data and trends related to alternative fuels and vehicles.

How many hydrogen fuel stations are there in the US?

Use our free hydrogen fuel station locator to check real-time availability and see the limited network for yourself. Only 52 hydrogen stations remain in the US. Get current information about station availability, reliability challenges, Shell's exit, and the reality for hydrogen vehicle owners.

How many hydrogen fueling stations will open in 2025?

Expansion in these states has been driven by both public and private initiatives to encourage the adoption of hydrogen vehicles. Ahead of 2025, additional hydrogen fueling stations are expected to open in several regions of the United States. In California, the number of stations is planned to increase to 100 by the end of 2025.

Our interactive map shows real-time data on the locations of hydrogen stations, ensuring that you can find the nearest refuelling point with ease.
