How does the EU support Moldova's energy system?

So far, the EU has already provided EUR240 million in direct budget support to Moldova's energy system from 2021 to 2024 to help the most vulnerable people. In the 2023-2024 heating season, more than 750 000 households have benefited from compensation through the EU-supported Energy Vulnerability Reduction Fund (EVRF).

Does Moldova have a new energy policy?

Moldova has committed to implement reforms embedded within the European Union's Third Energy Package, a suite of legislation adopted in 2009 aimed at creating integrated and competitive energy markets for natural gas and electricity.

How has Moldova restructured its electricity distribution network?

As part of the reforms, Moldova restructured and partially privatized its electricity distribution network, including Premier Energy, a private company that controls 70 percent of the country's electric distribution grid.

What are Moldova's energy reforms?

Among other priorities, the instalment focused on energy sector reforms. Since 2022, Moldova's power system has been connected to the European continental electricity network. On 1 December 2024, the export capacity from the EU to Ukraine and Moldova was increased from 1.7 to 2.1 GW, including 315 MW for Moldova.
