What is the NSW emerging energy program?

The \$75 million NSW Emerging Energy program provides grant funding to assist with the development of innovative, large-scale electricity and storage projects in NSW. By reducing barriers to invest in emerging technologies, the Program supports affordable, reliable and clean energy across the State.

Will NSW invest \$1 billion in energy projects?

"NSW will invest \$1 billion in critical projects to deliver more affordable, clean and reliable energy to homes and businesses across the state," she said. "After a decade of privatisation, the Energy Security Corporation gives the people of NSW the chance to invest in their energy system."

How can the NSW Government invest in new infrastructure?

The NSW Government is encouraging investment in new infrastructure through private sector proposals for new energy investments on State-owned water assets, providing information to project developers and identifying suitable regions for PHE storage.

What's new in NSW's energy system?

The NSW Government is delivering a once-in-a-generation upgrade of the state's energy system, with new and innovative technology changing the way we generate and store electricity.
