What is foundation repair?

Let's dive in. Foundation repair, also known as foundation leveling or house leveling, usually involves assessing the damage, selecting the best repair method, and restoring your home to a stable, secure foundation. But that's only the big picture, here's what foundation repair entails in detail and why it's necessary.

What is one method to repair a cracked foundation?

One method to repair a cracked foundation is to use a sealant or epoxy crack injection. You can strengthen a weak foundation using a few different foundation repair methods, including underpinning, slab jacking, foam jacking, installing carbon fiber support strips, or using a sealant or epoxy crack injection.

How much does foundation repair cost?

Keeping all of that in mind, the price range for foundation repair can range anywhere from \$300 for small cosmetic fixes to more than \$25,000 for larger jobs. Thankfully, foundation repair companies like Two Brother Foundation Repair offer financing programs. Learn more about how homeowners pay for foundation repair.

How do I know if my foundation needs repair?

Conduct regular visual inspections of the foundation to check for gaps in door or window frames, cracks in the walls and uneven floors. Continuously check for structural movement by monitoring your doors and windows for any misalignment. You can't just leave your foundation to the elements after repairs.
