What is a shipping container solar lighting kit 3?

Our Shipping Container Solar Lighting Kit 3 provides lighting in oversized shipping containers and storage areas with 2 days of battery technology for cloudy, rain, or snow days with 8 hours per day of run time.

What are solar lighting fixtures for shipping container?

Sun-In-One LED lighting fixtures for shipping container solar lighting kits provide you with enough light to get equipment or supplies out of the container, up to high-quality lighting, and allow you to use the shipping container as a workshop and have enough light to do fine detailed work.

Is IGT the right choice for your solar project?

Also, having IGT guiding our project through the permit process with our local government was a tremendous benefit. If you live in the Tallahassee area, and you are thinking about solar, IGT is the way to go. IGT will not only design and install a great solar system, but they will stand by it long after the work trucks drive away.

Who is IGT solar?

IGT is a company run and staffed by people passionate about solar. The staff is up to date on the latest trends and equipment in a rapidly changing field. With IGT you will get a system with the best components, very well designed, and expertly installed, all at a competitive price.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.
