Where can I buy inverters online?

You can buy inverters online from popular sites such as Amazon and Flipkart. These internet shopping websites offer an ocean full of options and affordable prices. They also deliver the product to your doorstep. Prices mentioned above are the best (least) price available for each item across all stores.

How much does a solar inverter cost?

Our guide to solar inverter costs covers everything you need to know before purchasing your solar panel system. Below we'll cover: The cost of solar inverters varies from  $\text{R}500$  -  $\text{R}2,000$  for the average property. The price depends on the type (string, micro or hybrid) you choose, the quality of the brand, as well as the size you need.

How much does a microinverter cost?

Microinverters can cost from  $\text{R}20$  to  $\text{R}100$  a unit. It can cost around  $\text{R}2,500$  for the average solar panel system comprising 14 panels, including installation costs like wiring. You'll face greater upfront costs when creating a system that uses microinverters, and the bill can be quite high if you're planning on a large installation.

How much does a string inverter cost?

A string inverter can cost around  $\text{R}500$  to  $\text{R}1,500$  for an average home. They're a low-cost option compared to other types of inverters. However, a string inverter usually has a lifespan of around ten years, meaning you'll need to replace it at least once since solar panels can last for 25 years or more.
