----

This flexible solution provides durable, low-power, low-power, wide area network connectivity in support of M2M and IoT applications for both LoRa service providers and individual ...

It suits meteorological data collection and transmission in outdoor/ indoor open fields. Must be used with optional sensors to obtain outdoor weather data. 915MHz frequency. ...

Bundled for easy deployment, the solution includes a Conduit with a LoRa mCard(TM), IP67 enclosure, and LoRa antenna to improve outdoor range. It also provides a choice of cellular ...

Built for the toughest environments, the MultiTech Conduit® IP67 Base Station delivers secure, reliable LoRaWAN® connectivity for outdoor and ...

Built for the toughest environments, the MultiTech Conduit® IP67 Base Station delivers secure, reliable LoRaWAN® connectivity for outdoor and industrial IoT deployments.

Outdoor IoT sensor monitoring stations equipped with waterproof enclosures, IoT devices with cellular modems, batteries, and solar panels represent a cutting-edge solution for real-time ...

MultiTech Conduit® IP67 200 Series Base Station is a ruggedized IoT gateway solution, specifically designed for outdoor LoRa® public or private network deployments.

CableFree offers Band 46 5GHz LTE Base Station and Outdoor CPE devices for operation in Unlicensed 5GHz spectrum, enabling smaller operators and private customers to build LTE ...

MultiTech Conduit® IP67 200 Series Base Station is a ...

IoT Outdoor Base Station

o MNB1200W series outdoor base stations are high-performance integrated base stations based on NB-IOT technology and support band B8/B5/B26. o MNB1200W base station supports ...

NB-Fi Base Station is connected to the WAVIoT IoT Platform via standard IP connection (using Power-over-Ethernet), which ensures flexible installation and does not necessarily require ...

It suits meteorological data collection and transmission in ...
