-----  
What size generator set container does Tradecorp offer?

Tradecorp's generator set container complies with ISO standards and is available in 20ft or 40ft container sizes. The unit is easy to relocate thanks to corner castings and forklift pockets, which allow for the use of cranes or forklifts, making it a sturdy, corrosion-resistant, and functionally optimal choice.

What is a generator set container?

The generator set containers offer optimal protection for generator engines against extreme weather conditions, dust, and other potential hazards. The robust construction of the containers also enhances security, helping to prevent theft and unauthorized access. Generator set containers are designed for quick and hassle-free installation.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.
