GSL Energy has successfully installed three advanced 14.34 kWh floor-mounted lithium iron phosphate energy storage systems in ...

The Jamaica Public Service Company (JPS) is preparing to make a transformative \$17 billion investment in its infrastructure for the upcoming year. This bold initiative aims to ...

In pursuit of the renewable energy target, the Government implemented legislation, enabling Jamaica Public Service (JPS) customers with renewable energy generators to sell ...

By seamlessly integrating solar power and battery storage technologies, the facility has reduced diesel generator usage by 85% while maintaining operational reliability.

The Jamaica Public Service Company (JPS) is preparing to make a transformative \$17 billion investment in its infrastructure for the ...

Power utility Jamaica Public Service Company, JPS, is investing US\$300 million to construct Jamaica's largest solar power plant and a battery storage facility, starting this month. ...

This project highlights the increasing demand for energy storage solutions in regions like the Caribbean, where integrating renewable energy sources and maintaining grid ...

Power utility Jamaica Public Service Company, JPS, is investing US\$300 million to construct Jamaica's largest solar power plant ...

Battery energy storage systems are no longer optional--they are essential to Jamaica's clean energy future. From reducing grid stress and lowering energy costs to enabling widespread ...

With its completion, the LASCO solar and battery storage project stands as a beacon of innovation and progress in Jamaica's renewable energy landscape.

With its completion, the LASCO solar and battery storage project stands as a beacon of innovation and progress in Jamaica's ...

The programme involves deploying modular, solar-powered, cold storage units across Jamaica to support food security and combat price volatility in the agricultural sector.

You might've heard Jamaica aims for 85% renewable energy by 2030 [1]. But here's the kicker - their current grid can't handle solar's midday surges and evening drop-offs.

The programme involves deploying modular, solar-powered, cold storage units across Jamaica to support food security and combat ...

GSL Energy has successfully installed three advanced 14.34 kWh floor-mounted lithium iron phosphate energy storage systems in Jamaica. These systems, integrated with ...
