Why is DTEK launching a battery storage facility in Ukraine?

REUTERS/Valentyn Ogirenko/File photo Purchase Licensing Rights KYIV, Sept 11 (Reuters) - Ukrainian private energy firm DTEK has launched the country's largest battery storage facility to ensure stable power supplies in the face of Russian attacks on Ukraine's energy sector, the company said on Thursday.

Does Kyiv have power?

A battered Kyiv has power for only about a fifth of residents. "Ten hours without electricity in Kyiv is, unfortunately, a new reality," the head of the local utility said. A family in front of St. Sophia Cathedral in Kyiv during a power outage on Saturday. Laura Boushnak for The New York Times

How much electricity will DTEK store in Ukraine?

According to DTEK, the project can store 400 megawatt-hours of electricity -- enough to power 600,000 Ukrainian homes for two hours. DTEK announced that commercial operations are scheduled to begin in October 2025, just before Ukraine's critical winter heating season.

A consortium of Ukrainian and Slovak companies has presented a mobile renewable energy power plant, the MASWES-1/10 ...

Cleantech and innovation energy tech startup specializing in graphene-modified cathode and anode material supply for various Li-Ion batteries. They are focused on ...

The project consists of six energy storage installations across Ukraine, capable of providing 400 MWh of dispatched energy, sufficient for short-term power supply to 600,000 ...

As Ukraine's capital accelerates its renewable energy adoption, Kyiv energy storage system power generation facilities have become critical for managing solar and wind power fluctuations.
