Where will the new lithium battery factory be built?

In a statement sent to the Lusa news agency, the Chinese company, a global leader in the production of lithium-ion batteries, announced that the project for the construction of the latest generation lithium battery factory will be launched on Monday at the Técnico Innovation Center, in Lisbon.

How many jobs will a lithium-ion battery factory create?

According to CALB, the factory will create 1,800 direct jobs. Portugal has some of the world's largest reserves of lithium, a key ingredient in the batteries that power electric cars: an estimated 60,000 tonnes, according to the US Geological Survey. When will a lithium battery factory start production?

The factory, which is intended to start production in 2028, is expected to have an energy storage production capacity of 15 GWh and will adopt the latest generation of lithium battery technology, committed to becoming an important supplier to the European electric transportation industry.

How much money is needed to build a lithium battery factory?

The project to build CALB's lithium battery factory for automobiles involves an investment of approximately EUR2 billion and the creation of 1,800 direct jobs and is due to start operating in 2028, on land in the Sines Industrial and Logistics Zone (ZILS).

Barroso lithium mine earns EU strategic status, fast-tracks permits and taps new funding. Discover how Portugal bolsters its EV battery supply chain and jobs.

The factory is to be in the Sines Industrial Zone near Lisbon and make lithium batteries mostly for the European market with a total annual capacity of 15GWh. This is ...

The factory to be built in Sines, about 100 km (62 miles) south of Lisbon, will produce lithium batteries with a

total annual capacity of 15 ...

The production capacity is intended for electric vehicles, which are primarily destined for the European market. The factory is to be ...

LISBON, Feb 21 (Reuters) - China's CALB, one of the world's largest battery makers for electric vehicles, said on Friday it would invest 2 billion euros (\$2.09 billion) in a ...

The Chinese company CALB has confirmed that it will invest EUR2Bn in Portugal to build a new lithium battery factory at Sines. The ...

Chinese battery manufacturer CALB has confirmed its plans to build a production facility for lithium-ion batteries in Portugal. The factory with an annual capacity of 15 gigawatt ...

Chinese lithium battery manufacturer CALB announced plans Monday to build its first European plant in Portugal, a two-billion-euro (\$2.1-billion) investment it hopes will help it ...

The production capacity is intended for electric vehicles, which are primarily destined for the European market. The factory is to be built in Sines, around 100 kilometers ...

Chinese battery manufacturer CALB has confirmed its plans to build a production facility for lithium-ion batteries in Portugal. The ...

Lisbon, Feb. 24, 2025 (Lusa) - The Chinese CALB lithium battery factory in Sines, in south western Portugal, whose EUR2 billion project was launched on Monday in Lisbon, could receive ...

In a statement sent to the Lusa news agency, the Chinese company, a global leader in the production of lithium-ion batteries, announced that the project for the construction ...

The factory is to be in the Sines Industrial Zone near Lisbon and make lithium batteries mostly for the European market with a total ...

The factory to be built in Sines, about 100 km (62 miles) south of Lisbon, will produce lithium batteries with a total annual capacity of 15 gigawatt hours, which is equivalent ...

The Chinese company CALB has confirmed that it will invest EUR2Bn in Portugal to build a new lithium battery factory at Sines. The launch of the project took place today ...
